

# ATTENTION SERVICE MANAGERS

- How much are you getting paid for used oil?
- With the soaring price of petroleum, have you wondered how much it's worth?
- How many gallons of used oil does your vendor collect from your service department?

## COMPLIANCE CENTRE

provides comprehensive

Environmental, Safety and Health Services for Automotive Dealerships.

It's simple....you pay for services rendered and  
you receive money for used oil.

**We are currently providing services for numerous dealerships throughout SC, NC and GA who have experienced as much as 65% savings with Compliance Centre!**

Our experienced staff works closely with your team to ensure compliance goals are met...we provide on-site employee training, written compliance programs, MSDS management, recordkeeping and reporting.

**Please contact us for references...talk to our clients who have already realized the savings!**

We are able to execute these services for a fraction of the cost because we take out the "middle man"...the processor/refinery provides direct transportation of your materials to their facility, thus, eliminating unnecessary costs and risks to the dealership.

**As profit margins get tougher to maintain, consider your options with regard to environmental management.**

Please call 800-257-8199 or visit [www.compliancecentre.net](http://www.compliancecentre.net) for more information.
