

COMPLIANCE CENTRE

Environmental • Safety • Regulatory

Compliance Centre is an authorized vendor for AllState and AIG

Safety & Pollution Prevention (SPP) Training.

We offer a self paced CD-rom training program that provides a cost effective, flexible method of meeting the requirements to become a Direct Repair Facility.

Our training program includes the following topics:

- Recordkeeping & Reporting OSHA Injuries
- Employee Exposure & Medical Records
- Hazardous Waste Management
- Emergency Action Plans & Fire Prevention
 - Portable Fire Extinguishers
 - Fixed Fire Suppression Systems
- Personal Protective Equipment
- Noise Exposure
- Respiratory Protection
- Machine Guarding
- Accident Prevention Signs & Tags
- Lockout/Tagout
- Powered Industrial Trucks
- Welding, Cutting, Brazing
- Bloodborne Pathogens Exposure Control
- Hazard Communication
- Clean Air Act
- Refrigerant Recovery and Recycling (MVAC)

Our training package also includes a written exam with 50 test questions that must be completed and mailed back to our offices for grading. Our **OSHA Authorized Instructors** are available for consultation by phone if you have any questions while completing the course. If you would like to receive more information about our SPP Training, please contact us.
